

# WIWA DOSING UNIT FOR PUTTY AND GLUE

[WWW.WIWA.COM](http://WWW.WIWA.COM)

## WIWA DOSING UNIT

### MATERIALS

- Putty
- Glue
- Sealing components

### AREAS OF APPLICATION

- Automotive
- Railway industry
- Interiors
- Machine beds
- Dosing of highly viscous materials  
(further applications on request)

### ADVANTAGES

- one of the few units worldwide with successful installations and trials
- high dosing accuracy
- adjustable output
- compact and mobile frame
- easy to use, low maintenance
- ATEX
- cost saving because larger containers can be used

### TECHNICAL DATA

- mixing ratio: 100:2 - 1:1
- dosing volume: approx. 450ml - 900ml per cycle
